

F3119*F1 Hybrid*

Origin:	Italy
Breeder:	L'AGRICOLA S.r.L
Contact:	agricola2@agricola.ws
Type:	filler or full flavour
Description	
<p>This F1 hybrid variety is very similar to C104 and produces plants that reach a height of around 170cm. Its particular structure allows for a very good environmental stability. F3119 is more versatile than C104 and is also highly tolerant to many diseases, in particular TMV, while maintaining its excellent commercial qualities unaltered. It can produce 26 usable leaves. Can be used as a Filler or full flavour. Its impeccable quality/quantity ratio along with its characteristic "nocciola" colouring, makes this variety one of the best available on the international market.</p>	

**MAIN CHARACTERISTICS**

Resistances:	
Black root rot:	T
Powdery mildew:	T
Blue mold:	S
PVY:	T
TMV:	T
Nematodes:	nd
Other:	

Production data (2013):		
Country:	Acreage:	% of total acreage:
Italy		

T: tolerant – S: sensitive
nd: no data
