

AS10

F1 Hybride

Origin:	Italy	
Breeder:	L'Agricola S.r.L	
Contact:	agricola2@agricola.ws	
Type:	Filler	
Description		
<p>This AS10 line is an F1 hybrid, around 150 cm of height It has been selected to obtain a variety similar to AS44DF: leaves with very good characteristics of structure, texture and colour (medium/light green coloration which turn to orange during the curing process). AS10 is an early flowering variety with excellent tolerance to the PVY. It has been selected to obtain short size plants to favour mechanical harvesting. Breeding work obtained appropriate stalk size, upright stance and good environmental stability. It normally produces 25 usable leaves suitable for a tobacco "filler type". AS10 prefers soil of medium/low fertility in which, following an intermediate/early maturing cycle, gives very good yields and quality.</p>		

MAIN CHARACTERISTICS

Resistances:	
Black root rot:	S
Powdery mildew:	S
Blue mold:	S
PVY:	T
TMV:	S
Nematodes:	nd
Other:	

S: sensitive - T: tolerant

nd: no data

Production data (2013):		
Country:	Acreage:	% of total acreage:
Italy
